

Performance Precision Reliability

It's a family tradition

Since 1979, **HILEVEL** has been providing high-performance test systems to many of the world's leading manufacturers. As the industry's most experienced compact tester company, our goal has always been to offer the most effective and reliable solutions possible. Our longevity and customer loyalty are testimony to **HILEVEL's** quality and reliability. Come on in. Join the family.

Meet our newest family member!

ETS788 **Test System**

Combining popular features of **HILEVEL's** ETS series testers (like APG Memory Test) with the new precision and accuracy of our Griffin systems, The ETS788 is the perfect solution for the testing requirements of memory devices.
